

# Inspection, Maintenance and Cleaning

## Industrial Plants

We have operated maintenance and inspection programmes at industrial sites throughout New Zealand since 1992. Our clients include Holcim New Zealand, Shell Todd Oil Services, Ravensdown Fertiliser Cooperative, Fonterra Cooperative Group, Carter Holt Harvey, TrustPower, Genesis Energy, Contact Energy, New Zealand Aluminium Smelters, Meridian Energy, Golden Bay Cement, Allied Concrete, and CentrePort Wellington.

Our personnel are trained to meet the strict safety requirements of industrial sites. In addition, all staff have Industrial Rope Access training and Confined Space training.

We can supply the following services:

- Concrete condition surveys
- Corrosion surveys and analysis
- Industrial coatings: interior and exterior surfaces
- Leak detection and sealant work
- Internal visual inspection of silos, vessels, ducts, driers and cyclones.
- Weld inspection and repairs to 4703 or 4711 standards
- Concrete repairs
- Vessel entry work
- High-pressure waterblasting
- Sealant application
- Clearing blockages
- Lightning protection systems
- Use of explosive
- Working around helicopters and cranes.

Please contact us to discuss particular requirements.

### Plant shutdown and chimney dismantling

In 2001 Holcim New Zealand's Cape Foulwind plant contracted Abseil Access Ltd to remove the top two metres from two concrete chimneys. During the six-week project we installed a high steel platform and scaffolding in addition to using a 70m crane. Concrete cutting and repairs were carried out before re-bricking the lining, overhauling the lightning protection, installing new safety line, plastering and painting. The entire project was successfully completed to meet the parameters of a scheduled 10-day plant shutdown period.

Our head office is centrally located in Wellington, but we also employ staff nationwide and can quickly deploy teams to sites throughout New Zealand and overseas.

With all inspection and repair work a full-colour report is supplied for future reference.
