

## EXPLOSIVE AND BLASTING SERVICES

### Safe, efficient use of rapid chemical reactions

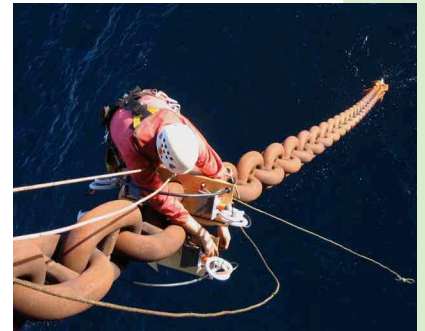

We have over 20 years of experience in this specialised and demanding field.

Our shot firers are certified and meet the Approved Handlers requirements (HSNO act 1996). We are certified for use of high explosives under EPA class 1.1 and NX-burst (low velocity explosives) under EPA class 1.4.

We are specialists in micro-blasting and use exact amounts of explosives to produce accurate fragmentation and minimal fly rock.

We have a range of portable pneumatic, petrol and electric drill rigs with integral long drill bits for efficient drilling.

We use HD video for post-blast and possible misfire analysis on all our blast projects.

### Services we offer include:

#### *Drill and Blast*

- Track benching
- Tidy, accurate profiling
- Boulder cracking
- Removal of unstable rock features and cliffs
- Excavations

#### *Demolition*

- Cutting cables and chains
- Splitting concrete
- Stump and log removal
